Invitation to Tender (ITT)

For: Developing situation analysis (mapping) of Cultural and Creative Industries in Jamaica and Review and Update of existing Strategies and Action Plans for the development of Creative and Cultural Industries in Jamaica

Date:

1. Overview of the British Council

The British Council is the UK’s international organisation for cultural relations and educational opportunities. We create friendly knowledge and understanding between the people of the UK and other countries. We do this by making a positive contribution to the UK and the countries we work with – changing lives by creating opportunities, building connections and engendering trust.

1.2 We work with over 100 countries across the world in the fields of arts and culture. English language, education and civil society. Each year we reach over 20 million people face-to-face and more than 500 million people online, via broadcasts and publications. Founded in 1934, we are a UK charity governed by Royal Charter and a UK public body.

1.3 The British Council employs over 10,500 staff worldwide. It has its headquarters in the UK, with offices in London, Manchester, Belfast, Cardiff and Edinburgh. Further information can be viewed at www.britishcouncil.org.

2. Introduction and background to the work

2.1 The British Council is an integral and important part of the UK’s bilateral relationship with Jamaica.

As one of the British Council’s main strategic business units, the Arts team, works with the best of British creative talent to develop innovative, high-quality events and collaborations with artists and cultural institutions in Jamaica. We find new ways of connecting and seeing each other through the arts. Our programme offers artists, creative industry professionals and audiences enriching experiences inspired by the UK’s cultural and artistic strength and diversity.

We bring new work or new interpretations of work from the UK to audiences across the whole of Jamaica. Through strong partnerships we discover new talent and new innovations, challenging ideas and pushing boundaries. Our team in Jamaica works with our arts specialists in the UK to design the most effective projects, working with arts professionals and policy makers in the UK and Jamaica.

In scope of this tender we intend to work with a successful candidate to develop situation analysis (mapping) of Cultural and Creative Industries in Jamaica and review and update of existing Strategies and Action Plans for the development of Creative and Cultural Industries in Jamaica, so that they correlate with the findings of the mapping.

The mean average scores after the weighting has been applied, will be added together to produce an overall total score.

The pricing evaluation will be based on the response with the lowest overall cost being assigned a score of 10 and all other responses will be calculated pro-rata.

Supplier Response to Section 3:

Annex 3 - Brief for the Project

GENERAL INFORMATION & BACKGROUND
The Government of Jamaica (GOJ) has taken actions that demonstrate its recognition of the Creative Industry and its potential in creating jobs and growing the economy. Examples of these actions are: the development of a ‘Creative Industry Strategic Plan’ and the inclusion of the Creative Industry as one of the strategic goals in the revised MSME & Entrepreneurship Policy. There are also plans for further development of the creative industry as revealed in the Medium Term Socio-Economic Policy Framework 2015 - 2018 to include but not limited to: (i) the development of a master plan for the Creative Economy; and (ii) the completion of the cultural and Creative Industries (CCI) Business Plan” (p207).

Despite the aforementioned, there is a dearth of data on the Creative Economy which stymie proper planning and policy formation. Information on the number of individuals employed in the Creative Economy, its contribution to the wider economy and the specific resource needs are not readily available. Where the data is available, the quality of the information is in question. For example, a conservative estimate shows that the CI contributed approximately 2% in Gross Value Added to the country’s GDP in 2017. However, a study commissioned by WIPO in 2007 found that the copyright related activities contributed 4.8% of GDP (JIP, 2019). Countries such as Greece, the United Kingdom and Mexico have implemented mapping exercise as a strategy in addressing the data deficit related to the Creative Economy in order to improve interventions. A scan of the existing data sources and consultation with the National Statistical Office of Jamaica (STATIN) revealed that Jamaica has never conducted a mapping of its Creative Economy.

The mapping exercise will require broad-based participation and collaboration involving public and private sector interest. The work will require the consultant to engage the following entities to obtain datasets, reports and other documents in order to conduct the necessary analysis in order to satisfy the research objectives:
