

COVID times: Washington Bolt

Covid times for me is very challenging but my mom goes out everyday to fight the good fight so we can have our daily meals. My mother is a single mother and she work hard when she's on the road she carry her hand sanitizer and face mask.

My mother have to deal with a lot of people on a daily basis. At first my mother was a scared but she tell herself that she have to go out and do her, her business to maintain us. I love my mother because she is a strong woman and she fight the battle of **COVID 19**. Just to maintain us, when we lock down.
